Defective Pender and Sergeant Chambers located the man and arrested him. When arrested he asked what he was wanted for "You know what it is for," replied the Sergeant, whereupon the prisoner replied, "Well I'm innocent." At the station he gave his mane as C Stone. It developed later that the murdered man's same was W Scott and that he and Stone had worked together for Contractor Kelsey. Timekerper J. C. Chatheld identified the dead body as that of Scott, and the prisoner as Stone, who worked on the sewer at the same time. Both men quit work on November 1, and said they were going to leave thom. They went to the Ogden house and rented a toom, leaving there together yesterday afternoon about 2 o clock. It has also been discovered that Stone attempted to dispose of a K-callber revolver. The prisoner admits that he was with Scott in the yards shortly after 2 o clock, but ways that Scott told him that he didn't want him to go along, and that he left. It now appears that the man was killed inside the car instead of outside, as was at first supposed. While this has not been definitely proven, that would seem to be the case, on account of the fact that the report of the revolver was not heard by any of the yardnen.

The pfficers are confident that they already have sufficient evidence to convict.

Country at Large Praises Efforts of American Party to Redeem October 24.-J. S. Hooking, Ellenor Bythe State.

> F. J. Senier came down from Butte the first of the week for the sole purpose of registering and casting his vote at the registering and casting his vote at the coming election. When it was suggested to Mr. Senior resterday that he must bave quite an interest in the election, he admitted that he had. "I also admit," said Mr. Senior, "that it is largely a sellish interest—a business interest as it were—as it is or should be with any man who in in a position to profit by the growth and material advancement of Utah and Sait Lake.

Country Is Interested.

"Salt Lake City residents, as a rule, have no idea of the interest that is being taken in the coming election here by outside people. In the last few weeks I have met a great many men of means from all parts of the country—the East and the West—and they have invariably spoken in terms of highest praise of the effort being made here to release the State said city from church domination in political and business affairs. With that stumbling block to progress out of the way, they declare it will be safe for outsiders to invest capital in the industries of Utah, and Salt Lake City will take its rightful place in the list of commercial conters which includes such cities as Denver, Los Angeles and Kansas City.

Move in Right Direction. Country Is Interested.

Move in Right Direction.

Move in Right Direction.

"It makes no difference to me," continued Mr. Sentor, "If some of the candidates are 'disgruntled,' as is so freely charged. I don't care who may be behind the American movement, or who, for petty personal reasons, may be against it—it is a move in the right direction, and should be supported by every one who wants to see Salt Lake an up-to-date city, it is a matter of principle with me, more than of men, although I have yet to hear of anything of real importance being urged against any candidate on the American ticket. There has not since the old Liberal movement been a time when a vote meant so much for the material interests of Salt Lake City."

What American Victory Means.

What American Victory Means.

Mr Senior reports continued interest in Salt Lake real estate among the invest-ors of the Montana mining camps, and he is very positive that this interest will be greatly increased by an American party victory.

POWERS AT AMERICAN FORK.

Chairman Spry Did Say It and His Letters to Bishops Show It.

Special to The Tribune. AMERICAN FORK, Nov. 2.—The Hon-O. W. Powerz, in a brilliant speech made here last evening, won a home in the hearts of every person who had the pleasure of hearing him. The Democrat-ic rally was the largest ever held in American Fork. The opera-house, which will seat for low, was packed, and many were on the outside, mable to gain stand-ing room.

W. E. Rydaich of Provo, Democratic candidate for District Attorney, made the opening speech, which, while brief, was to the point. Music by the Spanish Fork Silver band was followed by two cam-Rydalch of Provo, Democratic

Judge Powers was the feature of the evening. He was continually interrupted by enthusiastic applause. He created considerable laughter in residing the poem which had been composed and dedicated to Chairman Spry by Morris of Mill Creek, Utah, and published in his official organ, "The Truth." When he said that some good Republicans were saying that he could not be trusted with the affairs of Utah, but if the hangman's rope was about their necks they would be very glad to intrust their lives in his hands. Continuing he said that it was not so long ago that he awayd the life of a Mormon girl in Sait Lake, and that she was living today to testify to the fact. He urged the doubtful voters to write or talk with any of his neighbors in the Twentieth ward of Sait Lake, and he would be more than pleased to stand or fall by their judgment as to his being a safe man to tr...

Judge Powers was emphatic in his statement that he did not wish to be elected if it was necessary to travel on a road paved with lies and the defamaa road paved with lies and the defamation of men's characters, which had
taken them many years of diligent toil
to gain. In regard to the affairs in Utah
he said that Chairman Spry had accused him of being behind the American
party, and that the American party was
accusing him of having church influence
ured in his behalf. The letter which Bill
Glasmann is reading throughout this
State had not been of sufficient importance to receive publication in either of
the leading Sait Lake papers. The speaker raid that he could positively prove that
Chairman Spry of the Republican party
did say, in reference to the new party,
"Let them go, and for every Gentile vote
they poil I will see that we get two good
Mormon Democrats."

If elected, he would favor tariff on
sugar of Utah manufacture, as well as
lead and wool and other products of the

Immediately after the rally they proceeded to the Apollo dancing-hall, where the different candidates became acquainted with many of the young folks. During the rally somebody appropriated an overcoat belonging to the son of Judge Powers, who was here with his father.

A Democratic bishop and one of the presidents of the Apine stake, also a good Democrat, have this morning received letters from Chairman Spry of Sait Lake in regard to the electing of Roosevelt and a Republican Congressman. These letters are not finding any great amount of favor among those receiving them.

At the completion of the registration in American Fork yesterday it was found that exactly 5% voters had registered this year, against the four years ago. It was impossible to get a full registration here, owing to the fact that so many people were indifferent in regard to it.
